I should hope to get
 some benefit from
 guaiacol. I could not
 swim the wind as
 the furred water just
 before coming to the
 office. The powder
 which I have specified
 is for that reason, and because
 the obscurity of the
 symptoms, & pressed
 with some irritation
 of the bladder, irritative
 continues and the urine
 contains pus and several
 epithelium and

in the absence of
an chemical

of the urine.

Very truly,
W. A. [unclear]

W. A. Kitchard

Stomach ache since child. Dr. Apia Camp. remedy.
Continued until present affection.
Generally constipated. Calomel pills U.S.P. used.
Bad circulation, swabby feet, cold extremities.
Always nervous, but not easily excited.
Had very fleshy until 14 or 15 weighing 180#. ^{together}
Commenced music studies at 18th with concert
& now entering Music College at Cincinnati directed
Dr. Apia Camp. No particular change for better or
worse from that. "Stomach ache" assumed
a "periodical" form & when in J. B. Dille drug store
in Duluth it was regular at 6 A.M., 10 A.M.,
& P.M. & 9 P.M. (A certain time before
 meals & stopped when "full" (of victuals).
Left drug store & gradually improved to present
time. First signs of present trouble was, apparently,
Varicocele, short time before "4" July. Played
with a band "4" & at night in N. Vernon. Think
caught cold that night. Next A.M. severe pain
in right testicle & lumbar region & similar
now since, as noted. Nerve always suppressed

never, until absolutely necessary, always
being "too busy" to look after trifles of
that sort. Catch cold very easily & have or
think I have, catarrh. Eat all times for
dinner, if accessible, if not anything else.
These are a few of worst faults & habits.

L. E. P. L. L.
