

Check-In Social Story

I have an appointment to see the doctor today.

I bring my identification card, insurance card, and a list of my medications.

I also bring things to help me stay calm if I have to wait at the doctor's office.

I go to front desk to check in.

I tell them my name, birthdate, address, and phone number. I show them my ID and insurance cards. The clerk makes copies of the cards and gives them back to me.

The clerk gives me forms. I fill them out and give them back to the clerk.

I wait in waiting room for the nurse to call me when the doctor is ready to see me.

THE END
