

Have iPhone or Apple device read text aloud:

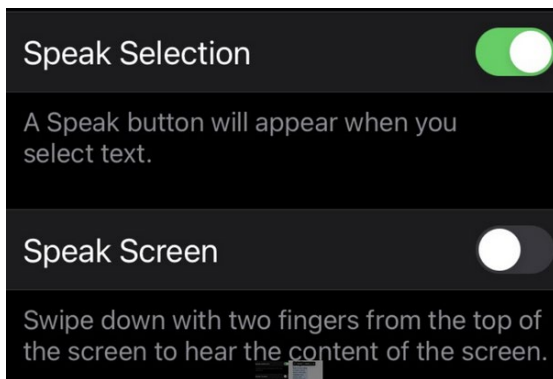

1) Go to Settings

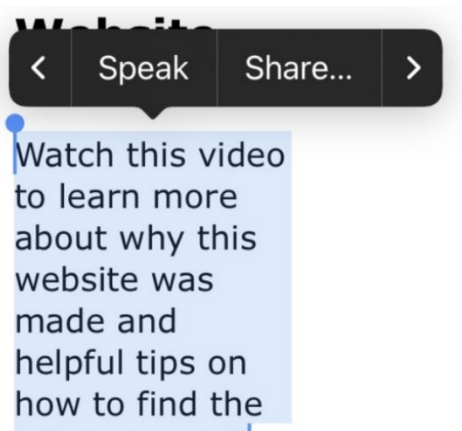

2) Click Accessibility

3) Click Spoken Content

4) Turning on “Speak Selection” lets you highlight text that you want the device to read aloud

5) Once “Speak Selection” is on, go to the website and select/highlight the text you want to read

6) Use the left and right arrows to scroll until you see “Speak.” Click “Speak” for your device to read aloud the highlighted text.
