

Fluoroscopy Social Story

I am getting a fluoroscopy test today.

The tech tells me if I need to change into a gown.

I take off jewelry.

The tech helps me get in place.

I can have a helper if they wear a lead apron.

The tech gives me contrast. I may swallow it. Some tests need an IV or catheter tube.

A tech and
a doctor do
my test.
They push a
button to
take the
video.

They will
take 2 to 4
videos. The
tech helps
me move
each time.

All done! I
get
dressed
and leave.

My doctor
and I will talk
about my
results later.

THE END
