

Hearing Test Social Story

I have a visit for a hearing test today.

I can bring someone I trust.

I check in at the desk.

I show my ID & insurance cards.

I wait my turn.

The hearing doctor
asks about my
health and hearing.

The doctor looks
in my ears.

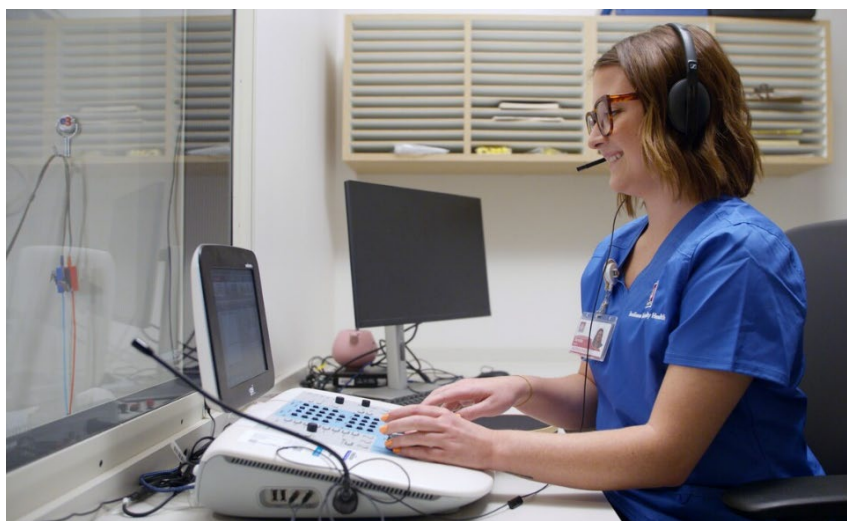

I sit in a sound
booth with a
window.

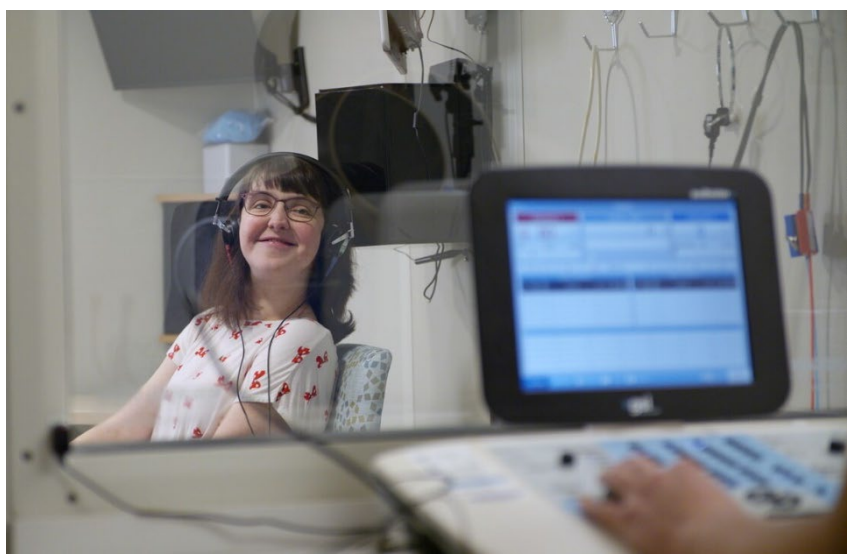

I can ask a helper
to sit with me.

The doctor gets
me ready.

The doctor sits
outside the
window.

I can see the
doctor the whole
time.

I may wear
headphones.

I repeat the words
I hear.

I raise my hand
when I hear
beeping sounds.

I may look in the direction of a sound when I hear it.

I may play a game with the doctor.

The doctor may put a probe in my ear to measure an echo.

We talk about
my results.

THE END
