

Mammogram Social Story

I have a visit for a mammogram today.

I clean my body.

I do not put on deodorant, perfume, powder or lotion.

I check in at x-ray.

I sit in the waiting room.

The tech brings me to the changing room.

I put on my gown.

It opens in the front.

The tech brings me to the room.

She asks me questions.

The tech helps move my breast onto the shelf.

I stay very still to take the picture.

The tech
moves the
machine.

Then she
moves my
breast
back on
the shelf.

I stay very
still for
another
picture.

Then we take pictures of my other breast.

I am done.

I change back into my clothes.

THE END
