

## Have Microsoft Edge read text aloud:

- 1) Look for the Microsoft Edge internet browser on your computer or device.

You can install Microsoft Edge to your device. <https://www.microsoft.com/en-us/edge/download>

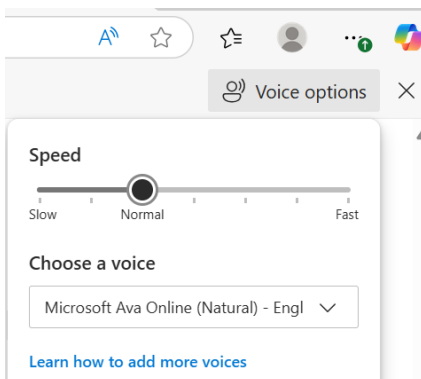

- 2) At the top of the screen on the right side of the search bar you will see an “A” with two lines. Click this icon to turn on Microsoft Edge read aloud.

- 3) When you click the “A” icon, your device will start reading the page. It will highlight the text so that you can read along.

- 4) Use these icons at the top. Use the middle icon to pause or play. Use the arrows to skip back or forward.

- 5) Click “Voice Options” on the top right to make the device read slower or faster, or to change the voice.
