

## MRI Social Story

I am getting an MRI today. This is a closed MRI.

This is an open MRI.

I change into a gown.

I take off jewelry and any metal.

The tech may start an IV.

The tech helps me get on the table.

The tech uses straps to help me stay in place.

The tech gives me earphones for music.

Or I might see a movie.

The tech gives me a button to push if I need a break.

The table  
moves into the  
scanner.

I stay still.

My test lasts 15 to 60 minutes.

All done! The tech  
helps me off the  
table. I get dressed  
and leave.

My doctor and I  
talk about my  
results later.

THE END
