

Ultrasound Social Story

I am getting
an
ultrasound
today.

I check the rules to know if I can
eat, drink, or pee before my test.

The tech tells
me if I need
to change
into a gown.

The tech
helps me get
in place.

The tech puts
warm jelly on the
probe and me.

The probe
presses on
me.

The tech
might push
hard.

I can ask for
a break.

I can see my
pictures on
the screen.

The tech wipes
the jelly off.

All done! I get
dressed and
leave.

My doctor and I
will talk about
my results later.

THE END
