

Checking Vital Signs Social Story

I have an appointment to see my doctor today.

The nurse will get me ready to see my doctor.

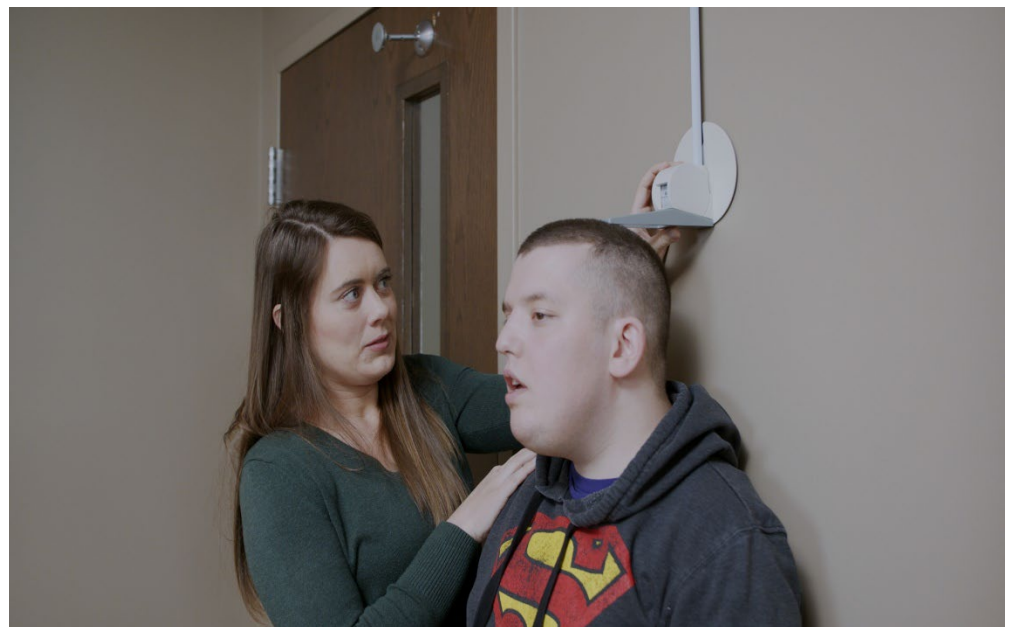

The nurse checks my weight. I take off my shoes.

I step on the scale and stand still.

The nurse checks my height. I stand against the wall. My heels and back touch the wall. The nurse slides a bar to the top of my head.

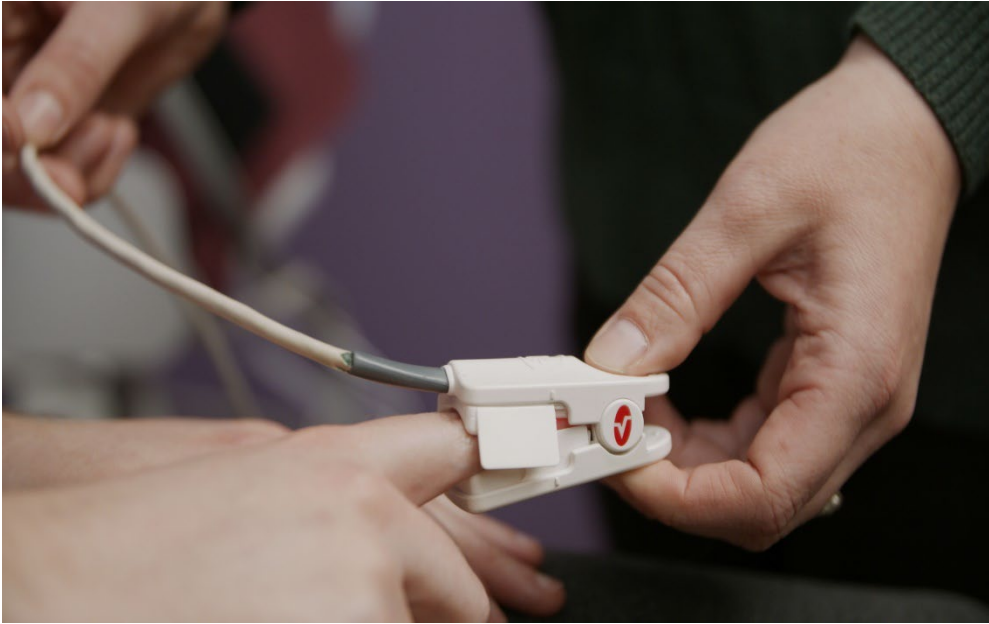

The nurse brings me to the exam room.

The nurse checks my temperature.

The nurse checks my blood pressure. The machine goes on my arm and gives it a big squeeze.

The nurse checks my breathing. The meter clips on my finger.

The nurse asks me some questions. Then I wait for my doctor in the exam room.

THE END
