

X-ray Social Story

I am getting an x-ray today.

Credit: Britannia Dental Care, Vecteezy Re

The tech tells me if I need to change into a gown.

I take off jewelry.

The tech helps me get in place.

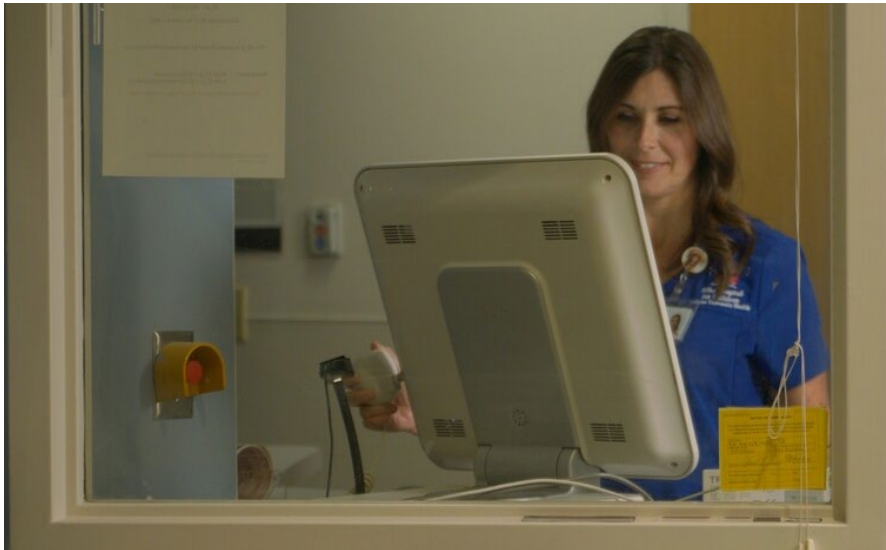

The tech moves the machine to take the right picture.

I relax and hold still.

They take 2 to 4 pictures. The tech helps me move each time.

The tech stands behind a window each time.

All done! I get dressed and leave.

My doctor
and I will talk
about my
results later.
